Dear Doctor,

It is our great honor and pleasure to invite you to the upcoming The 3rd Scientific Meeting of the Asian Federation of Osteoporosis Societies.

The AFOS is a federation of 11 Asian countries who studies osteoporosis. Since its inauguration in 2009 in Gwang-Zhou, China, the AFOS had its 2nd meeting in Kobe, Japan in 2011. On the basis of precious experiences from the histories of the AFOS, the AFOS 2013 Seoul is sure to be the most highly acclaimed Asian meeting in the field of Osteoporosis. As a host society, Korean Society of Osteoporosis acclaims a slogan of "Asia is different, AFOS by Asian people, AFOS for Asian people" for this meaningful event. The 3rd Scientific Meeting of the Asian Federation of Osteoporosis Societies (AFOS 2013 Seoul) will be held on September 6-8, 2013 in Lotte Hotel, Seoul, Korea.

Korean Society of Osteoporosis will put in enormous efforts for a successful meeting to be held. As a process, many of AFOS council member societies' website is now posting a banner which directly links to the homepage of the 3rd AFOS 2013 Seoul website. In particular, Dr. Civitelli (ASBMR president elect) and Dr. Langdahl (ECTS president) have generously agreed to attend the AFOS 2013 Seoul for the success of meeting of Asian Federation.

For the unification of the Asian Federation and for the continuous success of the AFOS, Ye-Yeon Won (President of the AFOS) and Byung Moon Kang (Symposium President of the AFOS 2013 Seoul and President of the KSO) would like to invite authorities of the Osteoporosis section in China.

To make our meeting even more meaningful and fruitful, many general participants, oral speakers and poster presenters are welcomed. For this meeting if you suggest 10 general participants from your country to attend our meeting, we will officially invite and support one attendee to our meeting.

Thank you again for understanding our efforts towards the AFOS 2013 Seoul for the Asian Federation, and We sincerely hope that you would accept our invitation and honor us with your presence.
